

Space Between and Dasein

Space Between and Dasein, separately or together, presuppose states of unity-within-perceptive consciousness, “one-ness.” Constricted into halves by violence or opposition, Space Between and Dasein are forced to descend from their own verticality to World and Will, opposing violence by an act of mirroring them with Earth and Idea “into” Space Between and Dasein again. The process ends in a “third,” which, by encompassing “two,” is also one.

Descent down a vertical axis and up again— agents of the Purification Chain in states of “exchange” crossing it in parallel horizontals— Space Between and Dasein are capable (make no mistake) of violence together, impositions of unity— against impositions of alterity or, when they are unavoidable, assimilating them into triangles bent back cleanly into a consolidating vertical axis— the “face” made by Space Between and Dasein together is always behind itself, “in itself,” and representation, in its representation of ultimate interiority, of the meta-rational, possibilities of “balance” and “linkage.”

Meta-rationality as consolidated alterity— in its consolidation, three becoming one again — avoidance via direct acknowledgement and transcendence of the horrible and false singularity of “two” and “two-ness”— Space Between, Dasein, and the copula— Space Between is Dasein and vice versa, all in the intermixing of boundaries and depths, center-places and edges, structures and differences in and “between” them.

Ontological thought not only “in” but “as” a compressed matrix structure, to be used not only discursively but instrumentally— a weapon against ideological “maze” structures, depths which are against depths which are not— one to three, back to one, then up to the solidity of “four” when ontological consciousness is developed towards the purity of gradual, “linked” (meta-rational), temporally extended verticality.
